## Web Developer

I am a skilled web developer with over two years of experience in building high-quality and advanced web applications. Specializing in frontend technologies, I have extensive expertise in crafting dynamic and responsive user interfaces using HTML, CSS, and modern JavaScript frameworks like React.js, Next.js, and Vue.js. Additionally, I have experience in backend development, leveraging Laravel to build robust REST APIs and seamlessly integrate them with frontend projects. My diverse skill set allows me to develop efficient, scalable web solutions.

## Experience

### 2022 - 2023

Trilium Soft I Palestine Gaza

#### Fullstack Web developer

- I work as full stack web developer, work with front-end projects and build many templates as front by using HTML, CSS , JavaScript ,React JS,,NEXT JS, VUE JS and NUXT JS framework.
- I worked on back-end projects using Laravel, and manage databases .
- Built reusable code to utilize for other projects and to minimize costs.
- Contributed to back-end experience and collaborated on APIs.
- Optimized SEO in websites to increase ranking and visibility.
- Developed and integrated payment processing features onto eCommerce websites.

### 2021 - 2023

Freelancer

#### Web Developer

I work as Freelance Web Developer, I offer a comprehensive background in designing and implementing customized web-based solutions to meet clients' unique needs. With proficiency in various programming languages and frameworks, I have successfully developed responsive and intuitive websites and applications. My strength lies in my motivation to stay up-to-date with the latest web technologies, ensuring timely, efficient, and high-quality project delivery.

# Projects

---
